**As define on the Terms of Reference, the scope of the engagement will include, but is not limited to:**

- Design and branding of a modern, secure, responsive website.
- Development using modern web technologies.
- Implementation of a secure Content Management System (CMS)
- Mobile and cross-browser compatibility.
- Migration of existing website content to the new website.
- Implementation of industry-standard web development security best practices.
- Testing, deployment, and go-live support
- Provide Training for CBSI website administrators and content editors on the CMS.
- Provide post-go-live support for the agreed period.

**Interested parties must demonstrate:**

- Proven experience in designing and upgrading corporate or Government websites.
- Expertise in a secure CMS platform.
- Strong background in secure web development.

**EOI submissions should include:**

- A company or individual profile
- Summary of relevant experience and qualifications, and similar projects.
- Summary of technical capability with CMS expertise.
- Provide at least two references of similar projects

**All EOIs must be submitted no later than 9<sup>th</sup> March 2026 to:**
